Professional Summary

Software Developer skilled in building responsive and high-performance web applications using **React.js**, **Next.js**, and **Node.js**. Experienced in developing full-stack projects with secure authentication, payment integration, and scalable backend systems. Strong understanding of modern **UI/UX**, **API optimization**, and efficient coding practices. Passionate about creating user-focused solutions with a solid foundation in computer science fundamentals.

Work Experience

Software Developer Intern

November 2024 – Jun 2025

Bluestock Fintech

- Developed responsive and interactive web application using React.js,HTML5, CSS3, and JavaScript.
- Improved website performance by reducing load time by 25% through code-splitting and image optimization.
- Collaborated in agile development cycles and contributed to team-basedfrontend projects.

Front End Developer Intern

July 2025 – January 2026

Digiglobe Solution PVT LTD

- Designed and developed fully responsive web pages for production modules.
- Implemented modern UI components using React.js and Tailwind CSS.
- Ensured cross-browser compatibility and mobile-first responsiveness.

Projects

Foodie-frenzy / React.js, Node.js,MongoDB,Express /

- Built a complete food ordering platform using React,Node.js, and MongoDB, featuring secure user login and a smooth menu browsing experience.
- Integrated Stripe for safe payments,a dynamic shopping cart system and an admin dashboard to manage food items and track customer orders.
- Developed a fast, mobile-responsive interface with optimized Reast APIs to ensure high performance and real -time data Updates across the application.

ShortIQ / Next.js,Inngest,Supabase / /

- Developed high-performance SaaS usingNext.js,Google Gemine and Fal-AI to streamline faceless content creation from Viral script generation to cloude-based rendering via Creatomate.
- Engineered robust infrastructure with Supabase, Inngest background processing and clerk for secure for multi-tenant authentication and Subscription management.

Fit-Track / React,TypeScript,Node.js, /

- Built a complete tracking platform using React,TypeScript, and Strapi ,Node.js for secure data management.
- Designed an interactive dashboard with real- time charts to visualized food logs, activity logs, and daily calorie progress.
- Integrated Gemini Ai for health insights and used Tailwind CSS to build a modern high-performance responsive Interface.

Imagify / React,Node,MongoDB, /

- Built an image generation platform using React,Node.js and MongoDB integrated with the clipDrop AI API.
- Implemented user login and data protection using JWT and bcrypt for a secure user expreience.
- Developed a credit-based system with Razorpay gateway for seamless user transaction and image generation.

Technical Skills

Programming Languages: JavaScript , Java, C, Python,SQL

Frontend: HTML,CSS,Tailwind CSS,React.js, Next.js

Backend & Databases:Node.Js , PostgreSQL, MongoDB,Firebase

DevOps & Tools: Git, GitHub, Postman

CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks

Education

St Andrews Institute of Technology & Management,Gurugram,Haryana

Sep 2022 – Jul 2026

Bachelor of Technology in Computer Science and Engineering(B.tech)

Certifications

- **Programming with JavaScript-META (Coursera)**
- **FrontEnd Software Engineering Virtual Experience - SkyScanner**
- **Deloitte Technology Virtual Internship**
- **Python-AI for India 2.0 - Skill India Digital**
